# Distinguished Invited Talk with Minister Stef Blok

Minister of Foreign Affairs of the Netherlands

- Securing Cyberspace : Perspectives of Netherlands-

---

Minister Blok will give a speech on cybersecurity at the Graduate School of Cyber Security of Korea University. 'Countries like Korea and the Netherlands, together with other likeminded countries defending the international rules based order, should join forces to counter bad behavior in cyberspace. That is why I am happy to talk about this important issue, that offers challenges, threats but also opportunities, with some of the smartest minds in Korea.
